EXPERIENCE

Front End Developer

November 2024 – Present

Notebrains Software and Services Pvt. Ltd .

Kolkata, West Bengal, India

- Developing and maintaining modern, responsive web applications using React.js, Next.js, and Tailwind CSS.
- Collaborating with designers and back-end developers to create seamless user experiences.
- Optimizing web applications for maximum speed and scalability. Implementing best practices for code quality, testing, and performance.
- Implementing best practices for code quality, testing, and performance.

PROJECTS

RallyUp((Internal) (Live) 🔗 | Using React(Next.js), Tailwind CSS, Redux Toolkit, Vercel February 2025

- Responsive Design: Built a fully responsive and intuitive UI using Tailwind CSS, ensuring seamless user experience across all devices.
- API Integration: Implemented RESTful API endpoints for ticket creation and retrieval.
- State Management: Utilized Redux Toolkit for efficient and scalable state management across the application.
- Filter Functionality: Integrated advanced filtering options, including latitude and longitude-based filtering for geospatial ticket management.
- SEO Optimization: Utilized Next.js's server-side rendering (SSR) and dynamic meta tags to enhance search engine visibility and indexing of events.
- Error Handling & Validation: Integrated robust error handling and validation mechanisms to ensure data integrity.

E-commerce Web App (Live) 🔗 | GitHub Using TypeScript, Next.js, Tailwind CSS, Vercel March 2024

- Server-Side Rendering (SSR): Utilized Next.js's SSR capabilities to render pages on the server, enhancing performance, and user experience, resulting in a 20% increase in page load speed.
- Responsive Design: Ensured the application is fully responsive and optimized for various devices, leading to a 15% improvement in mobile user engagement.
- Product Filtering and Shopping Cart: Integrated advanced product filtering for enhanced browsing and a user-friendly shopping cart system, which improved user satisfaction by 30%.

CERTIFICATIONS

- ReactJS & Redux - Udemy
- NodeJS with Express.js - Webgur
- Front End Development - Coursera
